The association fosters trade by promoting opening and maintenance of importing markets and by supporting the Brazilian Ministry of Agriculture, Livestock and Supply Chain with industry regulation and implementation of animal health programs. In partnership with the Brazilian Trade and Investment Promotion Agency – ApexBrasil, ABIEC and its associates have participated in international fairs, workshops and press communication.

Today, Brazil exports beef to 140 countries. Brazilian Beef is internationally recognized as a healthy, natural product, with a low fat content and a large versatility in the consumers' menu.
